MONTHLY LIST OF PUBLICATIONS AND MOTION PICTURES*

SEPTEMBER 1955

HOW TO ORDER: Publications will reach you sooner if you use the order blank attached to page 3. Requests and remittances for publications listed FOR SALE ONLY should be sent to the Superintendent of Documents, Government Printing Office, Washington 25, D. C. FOREIGN CORRESPONDENTS SHOULD ADDRESS THEIR REQUESTS TOGETHER WITH REMITTANCES AND ONE-FOURTH OF THE COST OF THE PUBLICATIONS TO DEFRAY POSTAGE CHARGES, TO THE SUPERINTENDENT OF DOCUMENTS, GOVERNMENT PRINTING OFFICE, WASHINGTON 25, D. C.

FARMERS BULLETINS

Squab raising. Agricultural Research Service. 22 p., illus. (F 684, rev.) Price 15¢.

Good management practices for commercial production of squabs are described in this recently revised bulletin.

Stored-grain pests. Agricultural Marketing Service. 46 p., illus. (F 1260, rev.) Price 25¢.

In this revised bulletin are discussed live weevils and other insects injurious to stored grain. Methods of preventing infestation of grain are discussed briefly.

Dry bean production in the eastern States. Axel L. Andersen. Agricultural Research Service. 29 p., illus. Supersedes L 223. (F 2083.) Price 15¢.

Dry beans are an important item in the diet of the American people. Requirements for successful production are given.

AGRICULTURAL HANDBOOKS

Sheep shelters and equipment for southern States. Agricultural Research Service and the Federal Extension Service. 16 p., illus. (AH 90.) Price 15¢.

The plans illustrated in this publication incorporate the latest research findings and the best available information on the arrangement and construction of buildings and equipment for sheep production. Instructions for ordering working drawings are included.

AGRICULTURE INFORMATION BULLETINS

Cost of electricity and liquified petroleum gas for cooking, refrigeration, and water heating. Earl C. McCracken and Elizabeth Beveridge. Agricultural Research Service. 14 p., illus. (AB 141.) Price 10¢.

This publication—intended mainly for use by extension and home service leaders, teachers, suppliers of electric service, dealers in LP-gas, and others who work with consumers—discusses chiefly the fuel cost of operating ranges, refrigerators, and water heaters with electricity and LP-gas.

CIRCULARS

General procedure for manufacturing Swiss cheese. George P. Sanders, Homer E. Walter, and Ralph P. Tittsler. Agricultural Research Service. 20 p., illus. (C 851, rev.) Price 15¢.

For those who have only limited experience in manufacturing Swiss cheese and for those who want general information on the subject this bulletin has been revised.

Rate of deterioration of fire-killed timber in California. James W. Kimmey. Forest Service. 22 p., illus. (C 962.) Price 15¢.

This circular is concerned with losses in merchantable timber from forest fires in California.

The California five-spined engraver: Its biology and control. George R. Struble and Ralph C. Hall. Forest Service. 21 p., illus. (C 964.) Price 15¢.

This is a report of studies made on the causes and characteristics of outbreaks of this pine insect. Practices are recommended to minimize damage from these attacks.

MOTION PICTURES

The Motion Picture Service, Office of Information, U. S. Department of Agriculture, produces and distributes motion pictures on subjects with which the Department is concerned. They are both sound and silent and are released in 16-mm. and 35-mm. widths. Films in the 16-mm. size are available from State film libraries; 35-mm. films are available only from Motion Picture Service. They are lent for educational purposes to groups and organizations or may be purchased outright. Prints of Department films may be obtained from 75 cooperating film libraries in the 48 States, the District of Columbia, and the Territories of Alaska, Hawaii, and Puerto Rico.

GRASSHOPPERS CAN BE CONTROLLED. 16 mm., sound, in color. Running time 21½ minutes. Released 1955.

This film demonstrates HOW grasshoppers can be controlled, through individual and community action in spraying infested areas, to minimize the damage caused by this insect—one of the farmer's most dangerous enemies. Ravenous and indiscriminate eaters, they attack such crops as corn, cotton, wheat, small grains, grasses, truck crops, and leaves and bark of both fruit and shade trees, not only in the so-called "grasshopper states," but throughout the United States. The film explains conditions that are good and bad for egg laying and multiplying and shows how serious outbreaks may develop. (Revision of YOUR ENEMY—GRASSHOPPER.) TV use permitted. (Available for loan from State College film libraries in grasshopper-infested states in the West and for purchase from United World Films, Inc., 1445 Park Avenue, New York 29, N. Y., $101.56.)
